

Brockman 4 – Workshops & Associated Facilities

Industrial Construction & Non-Process Infrastructure

Decmil was awarded the contract for the Brockman 4 expansion, a greenfields site 60 kilometres from Tom Price. Decmil provided a turnkey solution undertaking design, project management and construction through to full commissioning of the fully integrated facilities comprising of;

- Heavy Vehicle Workshop
- Light Vehicle Workshop
- Fabrication Workshop
- Plant Maintenance Workshop
- Boilermaker Workshop
- Tyre Change facilities

The Heavy Vehicle workshop has a floor area of approximately 1100m² and features a 50 tonne overhead travelling crane with a 5 tonne auxiliary, a crane maintenance access ladder and platform. Oil separation facilities and waste oil storage tanks were also installed.
